To Whom It May Concern,

Our company, PT ADHI KARYA (Persero) Tbk., recently had the pleasure of working with ATAD Steel Structure Corporation on the INKA Workshop Project in Banyuwangi, Indonesia. We as a firm were privileged to be in the very capable and experienced hands of the team at ATAD, who made the entire experience easy from start to finish. Throughout the project, they worked closely with us to understand our needs and developed a clear timed plan as well as the absolute optimum design of the project's performance. The project team is constantly keeping us informed of our progress and ready to respond to changes that arose. In the end, they delivered 10 units of building by 49,630 m2 in total to us in just 4 months and we were very pleased with the results. The commitment to quality, eagerness to complete the project correctly and within the allotted schedule is greatly appreciated.

Thank you for an excellent job and efficient throughout the whole process. Keep up the high standard.

Sincerely,

 **Hari Darmojo**  
Project Manager

INKA Workshop Project in Banyuwangi
